

# Floorliner Padded Surface Protection

Floorliner is a multifunctional, resilient nonwoven floor protection for the toughest demands.

Water impermeable, it provides ideal protection to floors and stairs, even under unfavourable conditions.

Its adhesive coating makes it easy to lay, remove and reuse on another construction site.

Floorliner keeps your construction site safe and clean.

## Functions

- Non-slip for safer sites
- Water Impermeable; protects the floor from all kinds of liquids (water, paint, solvents, ...)
- Extremely robust and tear resistant
- Does not pill when mopped

## Applications

- Tiled floors
- Parquet, laminate flooring
- Carpeting
- Stairs
- Kitchens, work surfaces
- Ceramics, wetroom facilities

## Features

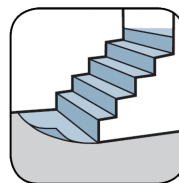

- Easy installation and disposal
- Economic storage (palletised)
- Robust
- Non-slip
- Impermeable
- Environmentally friendly

36" x 100ft roll (0.9m x 30.5m)  
- 24 rolls per pallet

## Strengths

- Does not slip on stairs. No fixing with adhesive tape
- Reusable, suitable for mopping & vacuum cleaning
- Does not pill when mopped
- No residue on the floor surface
- Free from harmful substances

**Slip-proof**

**Impermeable**

**Fuzz resistant**

**Extra robust**

**Bathroom-Kitchen**
