

Say goodbye to dirty whites that never seem to get back to their original color and say hello to safe, oxygen-powered cleaning that:

- Brightens dingy traffic lanes
- Boosts alkalinity
- Brings back the “pop” to upholstery colors
- Brightens and restores the color of olefin carpets

Boost All has been BOOSTED! Your favorite pH and oxygen boosting additive just got better with the addition of OXIBLUE™ Oxygen Accelerator, the proprietary hydrogen peroxide accelerator. Boost All is stable in powder form, but when mixed with water, OXIBLUE™ dissolves, comes in contact with peroxide and supercharges it! The result? Carpets get brighter, faster!

with OXIBLUE™ oxygen accelerator

DIRECTIONS:

EXTRACTION: Use ¼ to ½ ounce of Boost All per gallon of ready-to-use cleaning solution. The solution should be used within 60 minutes of mixing.

UPHOLSTERY: Use 1/4 to 1/2 ounce BOOST ALL per gallon of cleaning solution with either the extraction or shampooing cleaning method.

PRE-CONDITIONING: Add 1-2 ounce (mix first) BOOST ALL per ready-to-use gallon. Allow 15 minutes dwell time before extraction.

Safe for use on all synthetic and cotton fibers.
