Heat Wave®

Today's truckmounts are more powerful and deliver more heat than ever before, and you need a detergent designed to take the heat! Heat Wave is specially formulated for top-tier truckmounts to be quick dissolving and fast-acting, yet will not break down when subjected to high heat. Premium grade surfactants and detergents coupled with a high pH makes this product tough to beat! Cuts through suspended oils, grease, mineral soils, food soils and high pH prespray residues – giving you maximum extraction cleaning with minimum residue.
