Spot Stop

Professional Strength Stain Remover

Spot Stop

The encapsulating polymer additive will virtually eliminate wicking of soil or spills after effective stain removal techniques have been thoroughly completed. The encapsulating polymer additive will also neutralize any resoiling residue left from professional strength stain removal products. The lightly acidic pH neutralizes any alkaline residues from professional strength stain removal products. It also protects against browning and yellowing.

- No more WICKING
- No more RESOILING
- No more BROWNING

Part Number: CS17QT

3.5 RTU pH

Contents: One U.S. Quart (.94 Litres)

Available in Quarts and 12 x 1 quart cases

DIRECTIONS

For post treatment of Professional Stain Removal Products

1. Thoroughly remove stains and extract area.
2. Lightly mist area treated and brush Spot Stop evenly into fiber using a spotting brush.
