

# FLASH CUFF™

**TIRED OF HOSES COMING APART?  
TIRED OF INFERIOR LOCKING AND SWIVEL CUFFS?  
TIRED OF PREMATURE CUFF REPLACEMENT?**

The NEW Flash Cuff™ takes durability and innovation to the next level! Rugged construction and unique design ensure that twisted hoses and cuff replacements are a thing of the past. Additionally, the Flash Cuff™ both swivels and locks – no need to choose one feature over another.

## Improved Productivity

- Tighter connections between cuffs decreases the amount of air lost – leading to faster drying times
- Virtually indestructible; we've driven a truck over this, enough said!
- Cuff allows your hoses to swivel – don't spend your time untwisting tangled hoses
- Easy push-button lock keeps your hoses together whether you're going upstairs or around corners
- The inside diameter of the cuff is the same as that of the hose, keeping turbulence to a minimum and increasing air flow. This leads to faster drying times so you get the job done faster.

## Innovative Design

- Tapered ends and shorter length allow the Flash Cuff™ to fit on the hose reel and keep its shape better than competitive products
- Don't worry about your cuff coming apart, our push-button lock design eliminates unwanted cuff release
- Flash Cuff™ doesn't have any small, easily breakable parts like competing cuffs
- Locking design and swivel in one cuff – you don't have to choose one feature over another
- More options: we've got 2.5" inch cuffs for Pros that demand top air flow

\*1 Year Limited Warranty
