

▶ SANTA FE AIR PURIFIER

The Santa Fe **Air Purifier** utilizes True HEPA filtration + UV sterilization, cleaning your air while being whisper quiet.

MODEL 4042780

FEATURES

HEPA Filtration

- + Filters out 99.97% of pollutants
HEPA filtration helps keep you healthier by filtering out pollutants like pollen, dust, mold, bacteria and, airborne viruses.

UV Sterilization

- + One-touch UV activation
UV sterilization kills all types of microorganisms, including drug-resistant bacteria.

Purifies Air

- + Works to kill bacteria and virus with UVA+UVC process
By removing pollutants in the air can lead to several immediate and long-term health benefits, such as better sleep quality and increased life expectancy.

Quiet Operation

- + Low noise with Sleep Mode for quiet operation
Sleep mode ensures the quietest setting to minimize noise while purifying your air.

Eliminates Odor

- + Combats odor causing material with activated carbon filter
Neutralizes and removes unpleasant odors throughout your home or office.

Air Quality Indication

- + Real-time air quality display with auto speed adjustment
Allows you to see how clean your air is and feel confident that you and your family are breathing fresh, purified air at a glance.

The Santa Fe Air Purifier uses HEPA filtration to remove 99.97% of airborne pollutants, plus UV light to kill germs, viruses, and more. This 2-in-1 filter also includes activated carbon for odor elimination. It features a real-time air quality display and automatically adjusts its speed based on the quality of air in the space.

Ideal for residential and office spaces as large as 500 square feet, the Santa Fe Air Purifier features three fan speeds on the digital control panel and can be programmed to turn off up to 12 hours in advance. A sleep mode triggers the quietest setting to minimize noise.

SPECIFICATIONS

Voltage:	110-120V
Maximum Wattage:	40
Applicable Area:	500 Sq. Ft.
Maximum Noise Level:	55dB
Max CFM:	230
Unit Dimensions	12.8"W x 20.8"H x 13.4"D
Unit Weight	9.28lbs.
