

Upholstery Pre-Spray (B108)

Pre-spray for top cleaning performance on a wide variety of water-cleanable synthetic upholstery fabrics.

FOR PROFESSIONAL USE ONLY

Gentle, effective cleaning for synthetic upholstery

CATEGORIES: Pre-spray, Fine Fabric, Upholstery

DESCRIPTION

Concentrated high-grade detergents, builders and surfactants blended with emulsifying solvents designed to effectively remove body and hair oils, food-based greases and grimy soils! This upholstery pre-spray excels as the first step in the two-step hot water extraction cleaning process for synthetic upholstery fibers. Follow with All Fiber Deep Clean for upholstery cleaning that is powerful enough for commercial use!

FEATURES

- Powerful co-solvent action removes oily soils
- Safe for a wide range of water-cleanable synthetic upholstery fabrics
- Pre-spray process penetrates and removes hair and body oils from fabric
- Cleans heavily soiled chair arms and backs

WHERE TO USE

Homes - Couches, recliners, dining room chairs, where skin oil and food spills are found.

Offices - Reception rooms, office furniture, executive suites.

Restaurants - Removes oily food spots and grease.

USE DILUTION:

Pump sprayer: 8 oz / gallon

Injection Sprayer (High Pressure 1:9 model): 3 quarts in 5-qt injection sprayer

USE DIRECTIONS:

Pre-test: Pre-test in an inconspicuous location for dye and fabric stability.

Pump sprayer: Mix 8 ounces per gallon of warm water.

Injection Sprayer (High Pressure 1:9 model): Add 3 quarts to 5-quart container, fill with water.

Cleaning: Pre-spray solution on upholstery. Apply extra pre-spray to areas with heavy soiling (such as arms and cushion edges). Agitate heavily soiled areas with a horsehair brush or natural sponge for better cleaning. Extract using Prochem's Fine Fabric Detergent, Liquid Pro or All Fiber Deep Clean.

COVERAGE: Makes up to 17 ready-to-use gallons. One ready-to-use gallon cleans approximately 400 square feet. Coverage will vary depending on soil level and thickness and absorbency of upholstery fabric.

USAGE TIPS: Use for cleaning water-cleanable synthetic upholstery fabrics. To minimize browning and leave fabric soft, extract with All Fiber Deep Clean.

For cleaning wool and delicate water-cleanable fabrics, use Fine Fabric Pre-Spray instead.
