

PROCHEM

Professional Tile and Grout Cleaner

Use this potent, low-foaming, high alkaline tile and grout cleaner as the first step for sparkling clean hard surface flooring such as manufactured tile, grout and some VCT, vinyl, cement and natural stone surfaces. Industrial strength detergents and surfactants added for improved penetration and cleaning power. Simply dilute and spray onto soiled surfaces to loosen and break-down greasy, oily soils and dirt. Agitate with a grout brush and let dwell for 5–10 minutes for best results. Boost your solution with Citrus Pro for even better cleaning results!

SPECIFICATIONS

- RTU pH: 12.3
- **Coverage:** One gal. makes up to 9 gals. of RTU solution for approximately 400 sq. ft. per diluted gal.

SIZES ▪ OPTIONS
