Fresh Aire

Odor Control

Fresh Aire

Where to Use

Fresh-Aire is a liquid neutralizer for chemical and malodors. It leaves the air clean and pleasant smelling. Designed for use in schools, hospitals, nursing homes, hotels, theaters, and all other public buildings and institutions. Fresh-Aire neutralizes objectionable odors in locker rooms, garbage areas, apartments, carpets, gymnasiums, elevators, restrooms, animal cages, hallways, sinks, and other areas. This product can be used as a deodorizer addition in carpet shampoos. Fresh-Aire can be used with water soluble detergents such as floor cleaners, carpet shampoos and general purpose cleaners or degreasers. Do not add to disinfectants.

Benefits

- Excellent fragrance booster
- Highly concentrated
- Extended product coverage
- Cost effective
- Fresh, clean fragrance

Dilution Ratio/Directions for Use

Room Deodorizing: Dilute (1:40) 16 oz. per gallon/480ml per 3.8 litres of water. Spray at a 45° angle into the area to be deodorized.

Perfume Booster: Dilute (1:64) 2 oz. per gallon /60ml per 3.8 litres of water.

Fabric Refresher: Dilute (1:20) 1.5 oz. per gallon /45ml per 3.8 litres of water.

Carpet Deodorizer: Dilute (1:20) 1.5 oz. per gallon /45ml per 3.8 litres of water.

Perfume Booster: In general purpose detergents, Dilute (1:64) 2 oz. per gallon/60ml per 3.8 litres of water. Clean as usual.

Carpet Deodorizer: For water extraction carpet cleaning, Dilute (1:20) 1.5 oz. per gallon/45ml per 3.8 litres of water. Proceed according to machine operating directions.

Garbage Compactors: Spray entire area with Fresh-Aire concentrate. Mix only with water.
