

TRIPLEPHASE

Oxidizing Spotter

TRIPLEPHASE modifies organic stains to the point the organic coloration becomes invisible. For use on mustard, furniture stains, wood stains, coffee, tea, wine stains, urine stains, shoe polish, vomit, and other organic dyes and materials.

pH: 5.5

Dilution Ratio: RTU

Available in:

- 946ml (1 US Quart) - Part # 2622-0309
- 3.79 L (1 US Gallon) - Part # 2623-0300

DIRECTIONS:

Always pretest for colorfastness in an inconspicuous area.

Clean discolored area thoroughly. Remove as much of the staining material as possible with conventional spotting techniques before applying Triplephase.

Apply straight across the affected area of the stain. Allow to dwell five to ten minutes. Rinse and extract area thoroughly to remove as much of the stain and moisture as possible. If any residual stain remains, apply Triplephase again. Allow to dry. Do not judge final results until solution has dried. For use on synthetic carpet or fabrics only.

Keep this product out of reach of children. Read the Safety Data Sheet and Product Label before using. Take the necessary precautions dictated by the label to ensure that your health and that of your customers' is protected.
